Notable features:

Number 1100 has been formstoned and its date is uncertain -- probably c. 1858-60. Number 1102 is unusual in its cornice and modillions between first and second floors; it has floor windows and metal work. Number 1104 has a round-headed window on the first floor; gable roof and original door. Number 1108 has been formstoned and retains original door. Numbers 1110-1112 are two shops on one lot. Original shop front remains at 1110.

This block developed c. 1850-1865 from east to west, filled in after Franklin Square was established. The terrace with iron lintels is especially interesting and deserves preservation for its own merits and because of the terrace across from it.

Environmental context:

Numbers 1066, 1070 and 1072 are vacant and lots at 1114-1120 have been cleared. Wide, noisy street needs trees; house-to-house and across-street scale good.
